Hobbies

Passionate and energetic Front-end Web developer with over a year of experience in creating great products which truly make a huge difference, by meeting User/Customer needs and creating business values. I have been self driven in creating interactive web pages and VR experiences for business needs. Looking for new challenges in a healthy team environment.

Experience

Systems Engineer,
Infosys Limited.

Aug 2022- Till Date
Mysore, India

- Involved in creating interactive Learning tools, and learning games, using React JS involving the latest UI practices. Used various independent JS libraries to establish cool interactions in the tools making learning interesting.
- Created a metaverse gaming experience for enterprise applications using open source techs such as A-frame JS, Networked A-frame etc... Also contributed in creating 3D models using blender for the same.
- Responsible team member for creating UI prototypes involving suitable UX principles.
- Got INSTA Award for my impactful work with Quality and Innovation and an Infosys Certified Front-end Web Developer.
